

The risk of loss in trading futures and options can be substantial. Futures and options trading may not be suitable for everyone. Therefore, you should carefully consider the risks in light of your financial condition in deciding whether to trade. You may sustain a total loss of the initial margin funds and additional funds that you deposit with your brokers to establish or maintain a position in the commodity futures market.

Futures and options trading involve substantial risk of loss and is not suitable for everyone. The information contained on this web site has been obtained from sources believed to be reliable but is not guaranteed as to its accuracy and completeness. Those using the information contained herein for trading purposes are responsible for their own actions. Past performance is no indication of future response.

Additional Risk Disclosure Document for System traders:

Hypothetical or simulated performance results have certain inherent limitations. Unlike an actual performance record, simulated results do not represent actual trading. Also, since the trades have not actually been executed, the results may have under- or over-compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses. There have been no promises, guarantees or warranties suggesting that any trading will result in a profit or will not result in a loss.
